SEPTEMBER 28, 2013

### Interview with Engr. Ademola Isaac Olorunfemi FNSE, Deputy President of NSE

**Engr. Ademola Isaac Olorunfemi FNSE** is the Deputy President of the Nigerian Society of Engineers.

**E-Newsletter:** *What is the impression about the just concluded "World Engineering Summit"?*

**Engr. Olorunfemi:** The conference was fantastic. The organization and the opening ceremony were fantastic. The organizers were conscious of time in all the events. The welcome reception cocktail was pretty good. That is the way cocktail should be held. We have a lot of lessons to learn from it. The participants were very punctual, they were businesslike and very orderly. The ICT facilities that were deployed were very effective. We need to take a lot from here (Singapore) when we'll organize the "World Engineering Conference on Sustainable Infrastructure" next year. There are lots of lessons we should take away from here.

**E-Newsletter:** *What is your opinion about the technical content of the conference?*

Engr. A. I. Olorunfemi FNSE  
NSE Deputy President

**Engr. Olorunfemi:** The technical content of the conference was very good. The preliminary sections addressed the theme of the conference in different dimensions. The resource persons were very good. The delivery and the contents were very good. The technical sections were very good. The hall spacing is very good.

**E-Newsletter:** *You have talked about the lessons NSE has learnt to organize the next conference. What exact lesson do we need to perfect on our own conference?*

**Engr. Olorunfemi:** Number one, the registration procedures were well organized, it wasn't rowdy. The opening ceremony and every other activities were timely and precise. The guests and even the Deputy Prime Minister of Singapore arrived in time. The welcome reception was well organized the way it should be. There were no long speeches and no much protocols. The tea and lunch breaks were well organized and the food and snacks were adequate. The opening ceremony was very businesslike. There were no jokes, there were no dances and all of that. We need to take a cue from all of these.

**E-Newsletter:** *Thank you. sir.*

On Thursday 26th September 2013, the Nigerian Society of Engineers Port Harcourt Branch 2014 Executive Committee members were elected. **L-R:** Engr. Kombo Johnson, Engr. Emmanuel Idoniboye, Engr.
