MARCH 29, 2014

Interview with Engr. Sen. Adefemi Kila FNSE, on Engineering and Politics

Engr. Sen. Adefemi Kila, FNSE, was a senator of the Federal Republic of Nigeria.. He represented Ekiti Central in the 6th Senate.

E-Newsletter: *Sir, what can you tell us about engineering and politics?*

Engr. Kila: I am a civil engineer. I worked in the construction industry for 30 years before I moved into politics. Engineering is the sole business for development anywhere in the world. The engineers, technolo-

Engr. Adefemi Kila FNSE

gists, technicians and the craftsmen are needed to develop the country together. Unfortunately the bane of development is centered around politics and that is why I decided to go into politics to be able to put into government what engineers really want for the development of the country. It is very important that a lot of us, engineers, should go into politics. When we are many in politics, the decisions we make can sail through for the interest of engineers and the country as a whole.

E-Newsletter: *Thank you sir.*
