MARCH 4, 2016

Interview with Engr. Engr. Emmanuel Idoniboye

Engr. Emmanuel Idoniboye, MNSE, is the 18th Chairman of the Nigerian Society of Engineers Port Harcourt Branch.

E-Newsletter: *As the new Chairman of the Nigerian Society of Engineers Port Harcourt Branch, what message do you have for your members?*

Emmanuel Idoniboye

Idoniboye: It is a huge honour for me and a great privilege to serve as chairman of a foremost branch such as the Port Harcourt Branch. We have members that are encouraging and very supportive of branch activities, participating actively in every activity of the branch. My message to members of the branch is for them to continue with this sup-

port for branch activities and, as it is always, come up with suggestions on how to make the branch even greater.

E-Newsletter: *What advice do you have for the young engineers who are the future leaders of the Society?*

Idoniboye: The young engineers are the future of the Society and Profession. They must be interested in their professional development by availing themselves of the opportunities that abound in the workshops, seminars etc that are organized by the Society at both the national and branch. They should also be interested in the various other activities of the Society and participate in actively.

E-Newsletter: *Thank you sir.*
