| 13. Engr. Ibitoye Felix MNSE | Audit Committee |

The communiqué of the Nigerian Society of Engineers 2013 International Conference, Exhibition and Annual General Meeting will be published in the next edition of the E-Newsletter.

Reactions from the just concluded International Engineering Conference “Abuja 2013”

Eng. Marwan Abdelhamid
President of WFEO

This conference shows that the Nigerian Society of Engineers is well organized and deserves to host WECSI 2014 in Abuja.

Tahani Youssef
Executive Director of WFEO

The conference was well organized and WECSI 2014 will be successful. We must make great effort to bring delegates from all over the world and not only from Africa and work must start immediately.

Engr (Dr) Martin Van Veleen
President of FAOE

This conference addressed issues that are not only pertinent to Nigeria but are common in Africa and as such the outcome of this conference is important to all countries in Africa and WECSI 2014 which is on Sustainable Infrastructure.

Engr. M. B. Shehu, FNSE
President of NSE

The turnout of delegates was impressive compared to previous conferences of the Nigerian Society of Engineers. The quality of the opening ceremony was very high. The 2013 conference is a rehearsal for WECSI 2014.

Engr. I. A. Olorunfemi, FNSE
Deputy President of NSE

The conference was quite nice and it has enabled us to do a dry run of WECSI 2014. There were some hiccups which we will improve upon. So far, it was a very good conference.

Engr. A. K. Amshi, FNSE
Executive Secretary of NSE

The conference is a preparatory ground for WECSI2014. We have achieved tremendously. There are rooms for improvement and we will surely improve before then.

Engr. I. K. Inuwa, FNSE, OFR
Chairman, WECSI 2014 Planning Committee

This conference is a huge success in my view. We are going to build on it. For WECSI 2014, we are going to come out in a big way and make success of it.

Engr. Chief O. A. Ajibola, FNSE
Co-Chairman, WECSI 2014 Planning Committee

This was a good conference. WECSI 2014 will be better organized. We are moving towards the optimum. I believe we will get there.

Engr. (Mrs.) Valerie Agberagba, FNSE
Chairman, 2013 Conference Planning Committee

The conference has been quite exciting. I really have to appreciate the Conference Planning Committee for their tireless effort to make the conference successful. When we work together as a team there is nothing we cannot achieve.

Prof. Nii Quaynor
Father of Internet in Africa

This was a very large event. I saw young engineers, middle age engineers and older engineers and this assures continuity in the process, which I respect very much. For me, I judge communities on how vibrant and how they interact. This is the closest I have seen to a typical internet community. I can say confidently the Nigerian Society of Engineers is not too far from the internet community.

POINT ENGINEERING LIMITED

An independent and wholly (100%) Nigerian engineering consultancy company with a strong commitment to proving a POINT for indigenous participation in the Nigerian Oil & Gas and Petrochemical Sector by providing complete; quality assured engineering design, project management and related consultancy services capable of satisfying the most stringent requirements of our clients wherever it is required using the best available technical skills.
