MARCH 21, 2015

Interview with Mrs. Bunmi Ajayi

Mrs. Bunmi Ajayi, is the Database Management Officer of Nigerian Society of Engineers Headquarter, Abuja.

E-Newsletter: Madam, as the personnel in charge of the database of the Nigeria Society of Engineers, how do you think our members can benefit through the society database?

Mrs. Bunmi Ajayi: Members can benefit from our database because they can access information from database from any where in the world. This can help them check their membership status, their colleagues data and also their own data. Online payment can be made on this platform despite where members are in the world. Also our database can help organizations that may want to engage the services of an engineer to verify if the engineer is real-

Mrs. Bunmi Ajayi

ly a registered member of the Nigerian Society of Engineers. This can be done by checking their names from the database of the society. Information pertaining the society can also be accessed through our database.

E-Newsletter: What are the major challenges you face in ensuring the database is maintained?

Mrs. Bunmi Ajayi: Some of our major challenges is the internet and problem from the server or host. When there is internet down time it affects our work and also if our host is experiencing any form of problem it affects our database too. This type of challenges is not peculiar to us alone. It can also be faced elsewhere.

E-Newsletter: Thank you madam.

Left-Right: Mrs. Ahme, Engr. Eddy Wikina, Engr. Prof. K. D. H. Bob-Manuel, FNSE, Engr. Kombo Theophilus-Johnson, FNSE (Chairman of the Nigerian Society of Engineers Port Harcourt Branch), Engr. Kenneth Ohuaregbe representing the National Chairman of the Nigerian Institution of Mechanical Engineers Engr. Prof. Adisa A. Bello FNSE, Engr. Chief Aloysius C. Uchime and Engr.
