### Interview with Engr. Adekunle Mokuolu, FNSE

*Engr. Adekunle Mokuolu, FNSE, is the Deputy President of the Nigerian Society of Engineer.*

**E-Newsletter:** Sir, what do you see as the future of the society?

**Mokuolu:** Before anybody can apply and get to this level he must have a vision of what he wants to do for the benefit of the society. I will work with the President of the Society Engr. Otis Anyaeji, FNSE, to take the society to a higher level. If you have been doing something in the way and getting the same result there is need for you to change so that you can get different result that you really desire, that doesn't mean we have not been getting results. We will create opportunities for our members to be able to thrive and professionalize our sector so that

engineers will be directing what needs to be done in all facets of engineering development in our society.

The other thing is to create more awareness on professional ethics which starts from abiding by the rules and regulations of the statutory body that is regulating engineering which is COREN that regulates both Engineering and Engineers.

Also, from the students angle, we will ensure that our students get the feel of associating with the Nigerian Society of Engineers. I did a survey and realized that very few engineering students had flown in an aircraft before. We should help them to be able to get experiences and take tours of projects and so on so that they will be able to enhance the knowledge that they have been impacted in the university.

**E-Newsletter:** Thank your sir.

The Nigerian Society of Engineers Port Harcourt Branch General Meeting/Technical Evening held on Thursday 20th February 2016 at Engr. Ishmael A. Banigo secretariat. The Branch Chairman Engr. Emmanuel Idoniboye, MNSE, (middle, photo right) presided over the meeting. **Photo left:** Engr. Nwadike Jones, FNSE, made a presentation titled “Best Practice in Managing Infrastructure Procurement to Enhance Socio-Eco Development Objective in the Niger Delta Region”
